Description

Gelato #45

GELATO #45™ is a perfect example and execution of selective breeding from the Barney's Farm lab.

GELATO #45™ parents Sunset Sherbert and Thin Mint Girl Scout Cookies provided, after selection a beautifully balanced 60% Indica hybrid, a perfect choice for growers with all levels of experience, extremely forgiving but also very versatile for a wide range of growing techniques.

GELATO #45™ has an extraordinary, unique flavour and contrasting aroma profile with subtle hints of earthy pines, flowers and skunky notes of citrus, while the deliciously sweet aromas resemble mint-chocolate ice cream and fruity sweet berries

Gelato #45 is a strong robust plant reaching 100-120cm indoors given the time to grow with a flowering time of just 70days. Outdoors she can grow easily up to 2-2.5m reaching maturity by the start of October.

Dark vibrant shades of lime and olive-green large fan leaves evolve during its growth then in the right hands with the final stages of flowering a spectacular array of colours emerge. With a backdrop beautiful contrasting leaves displaying deep purples, with fading reds and orange tints. Densely compacted orbital shaped buds continually swelling in size, covered deep purple sugar leaves are gradually engulfed in the swollen lime green resin glands covered with bright amber pistils and golden coating of sticky resinous trichomes as she matures.
